SALOON

SX4 SALOON EXTERIOR

exterior design

It's easy to get hung up on all the practical benefits you want from your car. But what about the way it looks? Space, comfort and practicality are all important things, but sometimes you want a little bit more. The SX4 Saloon has everything you need for your journey; but finished off with alloy wheels, front fog lights and folding door mirrors to create a smart and refined design exterior. So you can strap the kids in the back, throw your bags in the boot and enjoy every inch of your journey.

We know your life comes with a lot of stuff. And when you're on the move, it can be tricky to find a place to put it all. A gym kit under the front seat, the weekly shop in the boot, a handful of crayons, a road map and a few magazines on the parcel shelf - and who knows what's in the glove box! So, when we developed the SX4 Saloon, we wanted it to be fully equipped for every part of your life. That's why it has a high driving position and power steering for added control. Remote central locking, air conditioning, and electric windows for increased comfort. And storage compartments and extra interior space for all the essentials you need on the way.

interior design

Safety

The SX4 Saloon doesn't just come with space, comfort and sophistication. It also has an incredible amount of safety features; including Automatic Braking System with Electronic Brake Distribution (EBD), driver, front passenger, side, and curtain airbags. So you feel comfortable, relaxed and totally secure - all at the same time.

Equipment

From halogen headlights to built-in cup holders - an equipment list that includes everything you need.
