Way of Life!

# Splash

# The compact car that can cope.

**Splash is a car that's perfectly attuned to hectic, rush-about days.**

Its compact dimensions mean that it's easy to manoeuvre and supremely nifty when it comes to parking – yet it's spacious enough for five adults.

The 1.0 litre, 5-speed manual transmission engine is designed to be brilliantly frugal, yet also brilliantly nippy. Its CO<sub>2</sub> emissions of just 119g/km\* are one of the lowest in its class.

And the Splash makes life easier with power steering, air conditioning, electric front windows and heated electric door mirrors.

When it comes to safety, Splash has the kind of protection you'd find in much larger vehicles. There's ABS and an EBD system – which varies the amount of force applied to each brake. Brake Assist, combined with an Electronic Brake-Force Distribution system, also makes it easier to keep control once the brakes are applied.

There's also four airbags. Add to this side impact protection beams and the city should hold no fear.

The Splash helps you enjoy the simple things in life more. School runs, supermarket missions, meeting up for a coffee and a chat. In fact, before long you'll wonder how you managed without it.
